

WAKEFIELD MUNICIPAL GAS & LIGHT DEPARTMENT INCENTIVE & REBATE PROGRAM

HOW TO RECEIVE AN INCENTIVE REBATE:

This is a two-tiered program which offers two ways to get money back on your energy improvements. Tier One is an incentive to make improvements to the home to save energy. **THIS REQUIRES AN ENERGY AUDIT/EVALUATION BEFORE ANY WORK BEGINS. THERE WILL BE NO EXCEPTIONS.** Tier Two is a rebate program to encourage the use of energy-efficient appliances, programmable thermostats and/or hot water heaters in the home. This is separate from the incentive program and does not require an energy audit/evaluation in order to participate.

Incentives:

A one-time payment of up to 25% of the total cost of the project (maximum rebate \$300), including the cost of materials and installation. (See brochure for list of projects included in this program.) **Copies of the audit (pre- and post-installation) must be submitted along with a copy of the contract or proposal before any incentive will be given.** This incentive is only available to the customer of record once every 12 months

Customer information:

Name _____

Address _____

Account # _____

Date of energy audit: _____

Improvements made: *(include make, model and sizes as applicable)* _____

Contractor name *(if applicable)* _____

Contractor address *(if applicable)* _____

Dollar amount of work *(include originals of all receipts)* \$ _____

Only one incentive per customer of record during each calendar year. Funds are limited, and once spent, the program will end for the year. A program administrator will select customers receiving an incentive or rebate at random for quality control verification. Normal processing time is 4 to 8 weeks.
