

Please Help Us Make a Great Community Better!!

Dear Business Owner:

We're asking you to help us make a great community better than it already is!

As a business proprietor, you can help keep Wakefield clean by regularly sweeping the area in front of your business and refraining from sweeping the debris into the streets and gutters.

Helping to keep Wakefield a beautiful town is not just a job for the merchants and business owners, it's a job for everyone who lives and works in Wakefield, both on the main thoroughfares and side streets. In fact, we're asking Wakefield residents to help, too, by maintaining and weeding the grassy areas in front of their homes and by sweeping their sidewalks regularly.

We're also asking for your help with keeping downtown and recreational areas clean by disposing of trash in the appropriate receptacles or by carrying out the trash you carry in.

Please help us keep Wakefield clean.... ***every little bit helps make a great community even better!!!***

Thank you for your assistance and support.

Richard Stinson
Director of Public Works
Town of Wakefield
