

Subject: Environmental Sustainability Committee 4/4 New Location: Public Safety Building

Hi - First, I want to welcome Anne Fortier, our new School Committee member. We now have a complete committee! While not everyone can attend the meeting Thursday, I do think it is worthwhile to meet to get to know each other and start discussing ideas. Please note that we have a change of meeting space. We will be meeting at 7pm on Thursday, April 4th in the Public Safety Building's Community Room, located at 1 Union Street. Just come in the front doors of the police department and the room is all the way to your right.

I realize that the community members have received letters saying that the start date is May 1 and may not yet be officially sworn in yet. If you have time to do so before the meeting (Town Hall is open until 7 on Thursdays), please do. If not, DO NOT WORRY, we will not be taking any votes on Thursday and I've confirmed it is ok to hold a meeting in advance of the May start date. The agenda should be posted today, as follows:

- (1) Committee Member Introductions and Interests;
- (2) Review of Committee Description and Structure
- (3) Brainstorm how to determine committee priorities and inputs
- (4) Discussion of logistics (day, time) for future meetings;
- (5) Other business (items not anticipated);
- (6) Public Input.

See you Thursday-

Julie
