

# TOWN OF WAKEFIELD

ENVIRONMENTAL SUSTAINABILITY COMMITTEE

---

January 12, 2023

We, the Wakefield Environmental Sustainability Committee, support the proposed new Wakefield Memorial High School project<sup>1</sup>. We support in particular the project's goals of being Net Zero <sup>2</sup>ready, achieving Leadership in Energy and Environmental Design (LEED) Silver <sup>3</sup>or better, having all-electric mechanical systems, inclusion of a green roof, and other sustainability features as noted in the Schematic Design submission <sup>4</sup>to the Massachusetts School Building Authority (MSBA)<sup>5</sup>.
